

Features

This chapter describes how to operate technology features.

Audio/Information System Guide

Notice regarding Audio/Information	
Screen Replacement.....	2
Feature Availability Based on Connection	
and Account Status.....	6
Google Assistant Features.....	7

System updates may result in some differences between the content of this manual and your experience using the actual vehicle.

Notice regarding Audio/Information Screen Replacement

After the audio/information screen is replaced, some applications and settings must be reset.

Take note of your settings before replacing the audio/information screen so that you can restore old settings after replacement.

About Third party apps

Third party apps must be downloaded again after the audio/information screen is replaced.

Audio/Information System Guide

Google, Google Play and Google Maps are trademarks of Google LLC.

For the most up to date information, please access the Google Help Center: <https://support.google.com/googleappsincar>

Some features, applications, and services may not be available depending on your country or region.

Notice regarding Audio/Information Screen Replacement

Differences in software versions before and after replacing the audio/information screen may cause differences in how the audio/information screen is operated.

Information recorded in your Google Account can be carried over without any special operations. Google Assistant, Google Maps and Google Play settings cannot be automatically carried over.

About Third party apps

The vehicle must be stopped in order to start the download of Third party apps.

■ Settings that can be transferred

Some settings can be transferred by your dealer. Please refer to the table for features that can be carried over after the audio/information screen is replaced. Please consult your dealer for details.

■ System

■ Checking the audio/information screen software version

After replacing the audio/information screen, follow the steps below to check the software version. Please ensure you are running the latest software version.

If the OS version is not the latest, please update it.

1. Press the **Home** button.
2. Select the **General Settings**.
3. Select the **System**.
4. Select the **About**.

Feature Availability Based on Connection and Account Status

Some Google built-in features require an active internet connection and a signed in Google Account. Please reference the following tables for feature availability based on connection and account status. If you do not have a network provider, feature availability will be limited. Available network providers vary based on your country or region.

Feature availability based on Connection and Account Status

Connection Status	Time Elapsed (since last online)	Account Status	Google Assistant	Google Maps	Offline Maps	Google Play
Online	Vehicle Data Plan	Signed in	Available	Available	- ^{*1}	Available
		Signed out	Limited	Limited	- ^{*1}	Not available
	Wi-Fi or Tethered Phone	Signed in	Available	Available	- ^{*1}	Available
		Signed out	Limited	Limited	- ^{*1}	Not available
Offline	Within 30 days	-	Limited	Limited	Available	Not available
		-	Limited	Not available	Temporarily ^{*2}	Not available

*1:Google Maps requires access to vehicle location information. Offline Maps is intended to support Google Maps usage during intermittent periods without connectivity, a vehicle data plan is required to keep Google Maps updated and automatically download.

*2:If the system is offline for more than 30 days, Offline Maps may not be available.

Google Assistant Features

You can activate Google Assistant in the following ways:

- Say "*Hey Google*".
- Press the  (Talk) button on the steering wheel.
- Select the Google Assistant icon on the infotainment screen.

You can use Google Assistant to operate various in-vehicle features and Third party apps such as Google Maps.

» Google Assistant Features

Below are examples of questions and commands for Google Assistant:

- *Turn up the volume*
- *Text <name><messages>*
- *Call <name>*
- *Navigate to <Street name>*
- *Play <song name> by <artist>*
- *What's on my agenda*

For the most up to date information, please access the Google Help Center.

Google Assistant is not available in certain languages and countries.
